Introduction page gives lesson objective, lesson outline, intro video, navigation

Jamf & Classroom management

Lesson Objective:
How do I use Jamf tools to
- promote engagement
- limit distractors
in the classroom?

Intro Video

Intro video connects w/ teacher experience testimonial

Classroom Scenario → Jr. High PBL

① Sally's Classroom — CHAOS

② Sound Relatable?
Some things that might help that situation:
1. delivering materials specific to groups of students → per group
2. limiting distracting apps on student iPads
3. Provide tools and resources that help students maintain momentum
4. Shut down devices to get student attn.
Teacher Bernie

I've experienced this! Here's How I used Jamf Teacher to help direct students!

In this Lesson you will:
1. use Classes in Jamf teacher to organize your students into groups
2. use lessons to provide students resources they need, and limit distractors
3. use Lock screen to get student attention

choose your own adventure, non-hierarchical content. each "card" includes content in video, step, and "try it" scenarios, includes links to additional resources

Jamf & Differentiation

Lesson Objective:
How do I use Jamf tools to provide
- Individualized &
- Differentiated
Instruction

Intro Video

Differentiation IS HARD

We've all been here:
35 different students / 35 different needs / 1 teacher
Practically speaking, how to deliver Individualized {instruction, resources, help} to students

Jamf Teacher provides tools to help!

One time, in my class I was running an algebra review and I.... I was amazed at how effective Jamf teacher was at helping me deliver individualized resources.

New Video: Focus on creating ad-hoc classes and inviting students

Teach Back

Perhaps not the best example...

Design your Own:
1. Use one of your current class Rosters as the foundation
2. divide your class into 4 'sections' for
High Concept — AP Response Prompt
Mid Concept — Cornell Notes
Low Concept — Mind Map
No Concept — Visual Dictionary
3. choose Apps & Resources on a topic of your choosing for each group
File Drop Zone

Teach Back Activities:
The purpose of these activities
- connect teacher's experience w/ Jamf tools
- Reinforce concept introduced & practiced above
- offer opportunity to share back
- gateway to badging

CONGRATULATIONS!

Jamf & Remote Learning

Lesson Objective:
How do I use Jamf tools to facilitate Remote Learning

Intro Video

CAMERA OFF
Billy, you're on mute.

"All my classroom management skills assume physical presence... remote learning requires a new set of skills and tools."

Half of it is just getting the students to show up online... remote learning is new to them also, and some have real tech literacy gaps...

Use Jamf Teacher to simplify Remote Classes

Sub Menu:

Jamf Teacher: Remote Classes
See it
Try it:
App simulation
1. connect video conferencing to remote classes, push to students
apply it:
1. Using classes' action features and your video conferencing app's breakout rooms feature to facilitate a class checkin using the sanctuary model.

Jamf & Collaborative Classroom

Lesson Objective:
How do I use Jamf tools to facilitate student peer collaboration in the classroom?

Intro Video

Narrator... "all these classroom movements have one thing in common...
Learning is a social activity
PBL
flipped classroom
teaching buzzwords!

Teacher Testemonial:
"When I'm running a PBL, I get glimpses of my teacher dreams come true: students working together so absorbed in the process of learning that I could leave the room and learning would continue... ...but I don't leave, of course its just too good to witness..."
teacher Bernie takes the mittens off...

creating a collaborative classroom is all about eliminating roadblocks & distractions
Jamf Teacher's Classes feature has been instrumental in facilitating this in my classroom.

Sub Menu:

Jamf Teacher: Classes
